

# CHM 499Y

## Introduction to Chemistry Research

Strongly encouraged for students in  
Chemistry specialist programs

Conducting original research in a laboratory environment is valuable experience for many future endeavours including graduate work.

For information about enrolling in this course, please go to the undergraduate courses and follow the link to the [CHM499Y](http://www.chem.utoronto.ca/) page at <http://www.chem.utoronto.ca/>. Enrolment in this course is limited and application for admission should be made to the Department in the preceding Winter Session with the deadline on the Friday in February before Reading Week. For the 2012-13 session the deadline is on **February 17, 2012**.
